

PROGRAM

Second Interdisciplinary Scientific Conference on "Autoimmune and Immunodeficiency Diseases"

11-13 of October 2017

VDNKh (Exhibition of Economic
Achievements) Pavilion 75

aaidconference.ru/eng.php

BIOCAD

Biotechnology Company

BIOCAD – одна из крупнейших биотехнологических международных инновационных компаний в России, объединившая научно-исследовательские центры мирового уровня, современное фармацевтическое и биотехнологическое производство, доклинические и клинические исследования, соответствующие международным стандартам.

BIOCAD – компания полного цикла создания лекарственных препаратов от поиска молекулы до массового производства и маркетинговой поддержки. Препараты предназначены для лечения самых сложных заболеваний, таких как рак, ВИЧ, гепатит, рассеянный склероз и т.д. Продуктовый портфель в настоящее время состоит из более 45 лекарственных препаратов, 10 из которых – биологические. Более 40 продуктов находятся на разных стадиях разработки.

Компания является единственным на территории России и стран Восточной Европы производителем лекарственных препаратов на основе моноклональных антител.

В BIOCAD работает **более 1 300 человек**, из которых **свыше 450 ученые и исследователи**. Офисы и представительства компании расположены в США, Бразилии, Китае, Индии, Вьетнаме и других странах.

Third Interdisciplinary conference on «Autoimmune and immunodeficiency diseases»

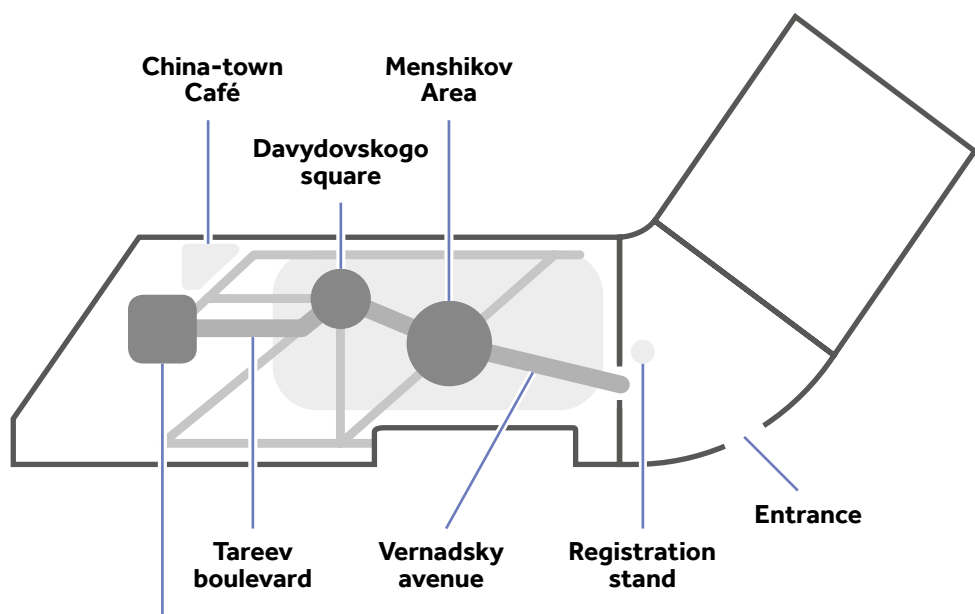

3 - 5 October 2018

**VDNKh (Exhibition of Economic
Achievements) Pavilion 75**

Scheme of the conference, VDNkH (Exhibition of economic achievements), Pavilion 75

Hall #10

named after V.A. Nasonova

Organizers

Russian academy of science

Federal agency of research organizations

Russian Scientific Medical Society of Internal Medicine

Council of Young Scientists – Russian academy of science

Federation of Laboratory Medicine

Совет при Президенте Российской Федерации по науке и образованию

Координационный совет по делам молодежи в научной и образовательной сферах

Council under the President of the Russian Federation for Science and Education

Supported by

MINISTRY OF HEALTH OF THE
RUSSIAN FEDERATION

Russian
Science
Foundation

Co-organizers

Endocrinology Research Center

Nasonova Research Institute of Rheumatology

Association of Russian Rheumatologists

Dmitry Rogachev Federal Research Center of Pediatric hematology, oncology and immunology

Federal State Autonomous Institution «Scientific Center of Children's Health» of Russian Ministry of Health

Union of Pediatricians of Russia

Moscow Clinical Scientific Center

Pirogov Russian National Research Medical University

M.M. Shemyakin and Yu.A. Ovchinnikov Institute of bioorganic chemistry of Russian Academy of Sciences

Federal State Budget Institution «Research Center for Obstetrics, Gynecology and Perinatology» of Russian Ministry of Health

NRC Institute of Immunology FMBA Russia

National Society of Pediatric Hematology and Oncologists

Research Center of Neurology

Russian Cardiology Society

Orekhovich Institute of biomedical chemistry

Russian cardiology research and production complex Russian Ministry of Health

Research Center for dermatovenereology and cosmetology of Russian Ministry of Health

Russian Medical Academy of Postgraduate Education

Russian Scientific Society of Immunologists

FSC Of Nutrition and Biotechnology

Scientific committee

Eugene L. Nasonov

Academician RAS, scientific director Nasonova Research Institute of Rheumatology, Moscow, Russia

CHAIR

Ivan I. Dedov*

Academician RAS, director Endocrinology Research Center, Moscow, Russia

Alexandr G. Gabibov*

Academician RAS, chief M.M. Shemyakin and Yu.A. Ovchinnikov Institute of bioorganic chemistry of the Russian Academy of Sciences, Moscow, Russia

Andrey V. Lisitsa

Academician RAS, Head of Institute of biomedical chemistry, Moscow, Russia

Sergey A. Lukianov

Academician RAS, Head of Pirogov Russian National Research Medical University (RNRMU), Moscow, Russia

Anatoly I. Martynov

Academician RAS, President of Russian Scientific medical therapeutics society, Moscow, Russia

Lyela S. Namazova-Baranova*

Academician RAS, Head of Federal State Autonomous Institution «Scientific Center of Children's Health» Of the Ministry of Health of Russian Federation, Moscow, Russia

Asfold I. Parfenov

PhD, professor, Head of intestine pathology department of Moscow Clinical Scientific Center, Moscow, Russia

Mikhail A. Piradov

Academician RAS, Head of Research Center of Neurology, Moscow, Russia

Alexandr G. Rumyantsev

Academician RAS, Head of Dmitry Rogachev Federal Research Center of Pediatric hematology, oncology and immunology, Moscow, Russia

Vladimir I. Starodubov

Academician RAS, director, Scientific Research Institute of Health Organization and Informatization, Moscow, Russia

Gennadiy T. Sukhikh

Academician RAS, Head of Federal State Budget Institution «Kulakov Research Center for Obstetrics, Gynecology and Perinatology» Ministry of Healthcare of the Russian Federation, Moscow, Russia

Areg A. Totolyan

Academician RAS, Head of Saint-Petersburg Research Institute of epidemiology and microbiology in honor of Pasteur, Saint-Petersburg, Russia

Ekaterina A. Troshina

Corresponding member RAS, chief scientific researcher Endocrinology Research Center, Moscow, Russia

Viktov A. Tutelyan

Academician RAS, scientific director Federal Research Centre of Nutrition and Biotechnology, Moscow, Russia

Rahim M. Haitov*

Academician RAS, scientific director NRC Institute of Immunology FMBA Russia, Moscow, Russia

Musa R. Haitov*

Academician RAS, scientific director NRC Institute of Immunology FMBA Russia, Moscow, Russia

Igor E. Hat'kov

PhD, professor, Head of Moscow Clinical Scientific Center, Moscow, Russia

Program committee

Elena N. Alexandrova

PhD, professor, Head of laboratory of immunology and molecular biology Nasonova Research Institute of Rheumatology, Moscow, Russia

Raisa C. Bembeeva

Professor chair of neurology, neurosurgery and medical genetics pediatric faculty of Pirogov Russian National Research Medical University (RNRMU), Moscow, Russia

Sania I. Valieva

PhD, professor chair of faculty pediatrics, Pirogov Russian National Research Medical University (RNRMU), leading scientific researcher Federal State Autonomous Institution «Scientific Center of Children's Health» Of the Ministry of Health, Moscow, Russia

Vladimir I. Vasiliev

PhD, professor, leading scientific researcher of intensive care laboratory Nasonova Research Institute of Rheumatology, Moscow, Russia

Inna Z. Gaidukova

PhD, assistant professor of pulpit of therapy and rheumatology in honor of E. E. Eihvald SZGMU in honor of Mechnikov, Saint-Petersburg, Russia

Elena A. Galushko

PhD, head of education IT and organizing department Nasonova Research Institute of Rheumatology, Moscow, Russia

Larisa A. Dobrynina

PhD, head of 3 neurology department Research Center of Neurology, Moscow, Russia

Irina S. Dydykina

PhD, leading scientific researcher, laboratory of safety of antirheumatic drugs, Nasonova Research Institute of Rheumatology, Moscow, Russia

Maria N. Zakharova

PhD, head of 6 neurology department Research Center of Neurology, Moscow, Russia

Arfenya E. Karamova

PhD, head of dermatology department State Research Center of dermatovenerology and cosmetology of Ministry of Health, Moscow, Russia

Oleg V. Knyazev

PhD, head of inflammatory intestine pathology department of Moscow Clinical Scientific Center, Moscow, Moscow, Russia

Tatyana N. Krasnova

PhD, leading scientific researcher of nephrology department I.M. Sechenov Moscow State Medical University, Moscow, Russia

Tatyana V. Latysheva

PhD, professor, head of immunology and intensive care department NRC Institute of Immunology FMBA Russia, Moscow, Russia

Galina V. Lukina

PhD, professor, head of research department of rheumatology, Moscow municipal rheumatology center, Moscow Clinical Scientific Center, Moscow, Russia

Alexey A. Maschyan

PhD, professor, vice-president, head of Hematology institute and cell technologies, Dmitry Rogachev Federal Research Center of Pediatric hematology, oncology and immunology, Moscow, Russia

Tatyana V. Nikonova

PhD, leading scientific researcher diabetel mellitus treatment department Endocrinology Research Center, Moscow, Russia

Alexandr A. Novikov

PhD in biology, leading scientific researcher of laboratory and molecular biology of rhematic diseases Nasonova Research Institute of Rheumatology, Moscow, Russia

Tatyana M. Reshetnyak

PhD, professor, leading scientific researcher of laboratory of systemic rheumatic diseases and group of hemorheologic impairment Nasonova Research Institute of Rheumatology, Moscow, Russia

Natalya A. Suponeva

PhD, head of neurorehabilitation and physiotherapy department Research Center of Neurology, Moscow, Russia

Natalya V. Chichasova

PhD, professor, rheumatology pulpit I.M.Sechenov Moscow State Medical University, Moscow, Russia

Organizing committee

Dmitry S. Atarshchikov

PhD, FSBI «Central clinical hospital with a polyclinic» Administration of the President RF, Chairman of the section «Autoimmune diseases» of the Russian Scientific Medical Society of Physicians, Moscow, Russia

CHAIR

Anastasia S. Avdeeva

PhD, Scientific employee of the Laboratory of Immunology and Molecular Biology of Rheumatic Diseases, Nasonova Research Institute of Rheumatology, Moscow, Russia

Alexey A. Belogurov

PhD, Senior Researcher, M.M. Shemyakin and Yu.A. Ovchinnikov Institute of bioorganic chemistry of the Russian Academy of Sciences, Moscow, Russia

Anna N. Evdokimenko

PhD, Scientific Secretary, Laboratory of Pathological Anatomy, Research Center of Neurology, Moscow, Russia

Roza M. Yesayan

PhD, head of the therapeutic department, Federal State Budget Institution «Research Center for Obstetrics, Gynecology and Perinatology» Ministry of Healthcare of the Russian Federation, Moscow, Russia

Alexey B. Zulkarnaev

PhD. Senior Researcher, Department of Clinical Transplantology, Vladimirsky Moscow Regional Scientific Research Clinical Institute, Moscow, Russia

Marianna E. Ivanova

PhD, Director of Autoimmunix Ltd, Moscow, Russia

Kirill I. Kirgizov

PhD, head of the Department of Scientific Research and Clinical Technologies, Dmitry Rogachev Federal Research Center of Pediatric hematology, oncology and immunology, Moscow, Russia

Olga I. Kiseleva

Researcher, Institute of biomedical chemistry, Moscow, Russia

Polina S. Kovalenko

PhD, rheumatologist. executive secretary of the Organizational Committee, Nasonova Research Institute of Rheumatology, Moscow, Russia

Elena I. Kremnieva

PhD, Researcher, Department of Radiation Diagnostics, Chairman of the Young Scientists Council, Research Center of Neurology, Moscow, Russia

Lev B. Kruglyy

Cardiologist, Russian cardiology research and production complex Russian Ministry of Health, Moscow, Russia

Elena A. Latycheva

PhD, Senior Researcher of the Department of Immunopathology, Associate Professor, NRC Institute of Immunology FMBA Russia, Moscow, Russia

Mikhail A. Mysin

Rheumatologist, Nasonova Research Institute of Rheumatology, Moscow, Russia

Taras O. Simaniv

PhD, Senior Research Fellow, Research Center of Neurology, Moscow, Russia

Nina A. Fadeeva

PhD, Senior Research Fellow of the Department of Inflammatory Bowel Diseases, Moscow Clinical Scientific Center, Moscow, Russia

Vladimir A. Shipelin

PhD, Senior Research Fellow, FSC of Nutrition and Biotechnology, Moscow, Russia

Schedule of the conference

Day 1 – 11 October (Wednesday)

Hall 10 named after V.A. Nasonova

10 ⁰⁰ – 11 ³⁰	Section #1: Russian scientific landscape in the field of studying autoimmune and immunodeficiency diseases. Part 1	
11 ³⁰ – 11 ⁴⁵	Coffee break	
11 ⁴⁵ – 13 ¹⁵	Section #1: Russian scientific landscape in the field of studying autoimmune and immunodeficiency diseases. Part 2	
13 ¹⁵ – 13 ⁴⁵	Lunch	
13 ⁴⁵ – 14 ⁰⁰	Opening ceremony	
14 ⁰⁰ – 15 ⁴⁵	Section #2: Present and future of biologic therapy of chronic and autoimmune diseases.	Round table (Nechiporenko hall #11) (Entrance by invitation only) Out-of-office gathering of expert council of Federation Government Council on questions of laboratory services financing. Implementation of laboratory tests in early diagnostics of autoimmune disease in Russian compulsory health insurance
15 ⁴⁵ – 16 ⁰⁰	Coffee break	
16 ⁰⁰ – 18 ⁰⁰	Section #3: Immunodeficiency and cellular technologies in medical practice	

Day 2 – 12 October (Thursday)

Hall 10 named after V.A. Nasonova

9⁰⁰ – 11⁰⁰

Section #4:

New approaches in the laboratory diagnosis of autoimmune diseases

11⁰⁰ – 11¹⁵

Coffee break

11¹⁵ – 13⁰⁰

Section #5:

Rational glucocorticosteroid therapy for autoimmune diseases

13⁰⁰ – 14⁰⁰

Lunch

14⁰⁰ – 15⁴⁵

Section #6:

Biologic therapy of autoimmune diseases

15⁴⁵ – 16⁰⁰

Coffee break

16⁰⁰ – 18⁰⁰

Section #7:

Hematological disorders in autoimmune diseases

Day 3 – 13 October (Friday)

Hall 10 named after V.A. Nasonova

9⁰⁰ – 10³⁰

Section #8:
Neuromuscular pathology in autoimmune diseases

10³⁰ – 10⁴⁵

Coffee break

10⁴⁵ – 12¹⁵

Section #9:
Microbiota, food intolerance and nutraceutical for autoimmune diseases

12¹⁵ – 12³⁰

Coffee break

12³⁰ – 14³⁰

Section #10:
Patients with combined autoimmune pathology. Clinical cases reports.

14³⁰ – 15⁰⁰

Conference closure. Resolution.

Lectures

Day 1 – 11 October (Wednesday)

10⁰⁰ – 11³⁰

Section 1. Russian scientific landscape in the field of studying autoimmune and immunodeficiency diseases. Part 1

Invited guests:

- *Ivan I. Dedov, Academician RAS, director, Endocrinology Research Center, Moscow, Russia*
- *Alexander V. Khlunov, PhD, Director, Russian Science Foundation, Moscow, Russia*
- *Olga A. Dontsova, PhD, Member of the Expert Council of the Russian Science Foundation for Scientific Projects, Moscow, Russia*
- *Evgeny N. Imyanitov, Corresponding Member of the Russian Academy of Sciences, Coordinator of the Expert Council of the Russian Science Foundation, Moscow, Russia*
- *Sergey A. Lukyanov, Academician RAS, Head of Pirogov Russian National Research Medical University (RNRMU), Moscow, Russia*
- *Eugene L. Nasonov, Academician RAS, scientific director, Nasonova Research Institute of Rheumatology, Moscow, Russia*
- *Gennadiy T. Sukhikh, Academician RAS, Head of Federal State Budget Institution «Kulakov Research Center for Obstetrics, Gynecology and Perinatology» Ministry of Healthcare of Russian Federation, Moscow, Russia*
- *Andrey V. Lisitsa Academician RAS, Head of Institute of biomedical chemistry, Moscow, Russia*

Anti-HIV-1 activity of G4 oligonucleotides. The role of ncDNA in the infections development and the regulation of the immune response (15 min)

Anna M. Varizhuk, Ph.D., Senior Researcher, FRCC PCM, Moscow, Russia

Th1, Th17 and Th1 / Th17 lymphocyte populations: phenotype, function and relationship between populations (tuberculosis model study) (15 min)

Irina V. Lyadova, Head of the Laboratory of Biotechnology, Federal State Biotechnology University «CRIT», Moscow, Russia

Association for the development of autoimmune polyglandular syndrome of adults with polymorphism of HLA class II genes and a predisposition to the development of chronic adrenal insufficiency within the framework of autoimmune polyglandular syndrome (15 min)

Anna A. Larina, PhD student of the Department of Endocrinology Research Center of the Ministry of Health of Russia, Moscow, Russia

Optimization of components of the cytokine complex of interleukin 17A with a nanoantibody for structural studies (15 min)

Olga S. Kostareva, PhD, Researcher, Structural Research Laboratory, Institute of Protein, Russian Academy of Sciences, Moscow, Russia

Study of activation of macrophages for the development of immunocorrective therapy (15 min)

Nikita G. Nikiforov, Junior Researcher, National Medical Research Center of Cardiology, NMI of Cardiology, Ministry of Health of Russia, Moscow, Russia

Discussion (15 min)

11³⁰ – 11⁴⁵ Coffee break

11⁴⁵ – 13¹⁵

Section 1. Russian scientific landscape in the field of studying autoimmune and immunodeficiency diseases. Part 2

Approaches to directed therapy for autoimmune neurodegeneration (15 min)

Alexey A. Belogurov, PhD, Senior Researcher, (head – Alexander G. Gabibov, Academician RAS) M.M. Shemyakin and Yu.A. Ovchinnikov Institute of bioorganic chemistry of the Russian Academy of Sciences, Moscow, Russia

New approaches to anticytokine therapy in autoimmune diseases (15 min)

Marina S. Drutskaya, PhD (head - Sergey A. Nedospasov, PhD), Engelhardt, Institute of Molecular Biology RAS, Moscow, Russia

Search for characteristic clones of T-lymphocytes in the synovial fluid of patients with spondyloarthropathies (15 min)

Ekaterina A. Komech, (head – Ivan V. Zvyagin, PhD) laboratory of comparative and functional genomics, M.M. Shemyakin and Yu.A. Ovchinnikov Institute of bioorganic chemistry of the Russian Academy of Sciences, Moscow, Russia

Prognostic role of free light chains in multiple sclerosis (15 min)

Vladimir D. Nazarov, (head – Areg A. Totolyan, Academician RAS) State Institution of Higher Professional Education «The First Saint-Petersburg State Medical University named after academician I.P. Pavlov» of the Ministry of Health of Russian Federation, St. Petersburg, Russia

The role of ectopic lymphoid follicles of the central nervous system in the pathogenesis of neurodegeneration in multiple sclerosis (15 min)

Gleb S. Makshakov, neurologist, (head – Alexander A. Skoromets, PhD) State Institution of Higher Professional Education «The First Saint-Petersburg State Medical University named after academician I.P. Pavlov» of the Ministry of Health, Russian Federation, St. Petersburg, Russia

Discussion (15 min)

13¹⁵ – 13⁴⁵ Lunch

13⁴⁵ – 14⁰⁰

Opening ceremony

Invited guests:

- *Valery A. Chereshev, Academician RAS, President of the Russian Society of Immunologists, Moscow, Russia*
- *Sergey A. Lukyanov, Academician RAS, Head of Pirogov Russian National Research Medical University (RNRMU), Moscow, Russia*
- *Eugene L. Nasonov, Academician RAS, scientific director Nasonova Research Institute of Rheumatology, Moscow, Russia*
- *Andrey V. Lisitsa Academician RAS, Head of Institute of biomedical chemistry, Moscow, Russia*
- *Areg A. Totolyan, Academician RAS, Head of Saint-Petersburg Research Institute of epidemiology and microbiology in honor of Pasteur, Saint-Petersburg, Russia*

14⁰⁰ – 15⁴⁵

Section 2. Present and future of biologic therapy of chronic and autoimmune diseases

(is not included in CME)

Moderator:

- **Eugene L. Nasonov**, Academician RAS, scientific director Nasonova Research Institute of Rheumatology, Moscow, Russia

Current trends in the biological therapy of autoimmune diseases (30 min)

Eugene L. Nasonov, Academician RAS, scientific director, Nasonova Research Institute of Rheumatology, Moscow, Russia

Possibilities of gene therapy for chronic diseases (30 min)

Alexander V. Karabelskiy, Research&Development Department, BIOCAD, Saint-Petersburg, Russia

Biotechnology in the future medicine (30 min)

Roman A. Ivanov, Deputy Director, Head of Research and Development Department, BIOCAD, Saint-Petersburg, Russia

15⁴⁵ – 16⁰⁰ Coffee break

16⁰⁰ – 18⁰⁰

Section 3. Immunodeficiency and cellular technologies in medical practice

Moderators:

- **Tatyana V. Latysheva**, PhD, professor, head of immunology and intensive care department NRC Institute of Immunology FMBA Russia, Moscow, Russia
- **Natalya B. Kuzmenko**, PhD, head of Department of clinical immunology Dmitry Rogachev Federal Research Center of Pediatric hematology, oncology and immunology, Moscow, Russia

Primary immunodeficiency states: the path from phenotype to treatment (20 min)

Natalya B. Kuzmenko, PhD, head of Department of clinical immunology Dmitry Rogachev Federal Research Center of Pediatric hematology, oncology and immunology, Moscow, Russia

Topic is discussed (20 мин)

Tatyana V. Latysheva, PhD, professor, head of immunology and intensive care department NRC Institute of Immunology FMBA Russia, Moscow, Russia

The use of NGS in the diagnosis of primary immunodeficiency conditions in children (20 min)

Elena V. Raikina, PhD, Head of Molecular Biology Laboratory, Dmitry Rogachev Federal Research Center of Pediatric hematology, oncology and immunology, Moscow, Russia

First results of the primary immunodeficiency conditions registry in Russian Federation (20 min)

Anna A. Mukhina, MD, immunologist-allergologist, Dmitry Rogachev Federal Research Center of Pediatric hematology, oncology and immunology, Moscow, Russia

Hematopoietic stem cell transplantation and gene therapy of primary immunodeficiency conditions and autoimmune diseases (20 min)

Alexandra L. Laberko, MD, immunologist-allergologist, Dmitry Rogachev Federal Research Center of Pediatric hematology, oncology and immunology, Moscow, Russia, Dmitry N. Balashov, PhD, professor, Kirill I. Kirgizov, PhD

Viral infections in patients with immunodeficiency conditions: diagnosis and treatment approaches (20 min)

Vasily I. Shahgildyan, PhD, Senior Research Fellow, Infectious Disease Doctor, Center for AIDS Prevention and Control, Moscow, Russia

Autologous cellular product CD4 + CD25 + FoxP3 + CD127^{low} of regulatory T-cells for the therapy of remitting multiple sclerosis (15 min)

Svetlana N. Bykovskaya, PhD, professor, Department of Cellular Technologies and Regenerative Medicine, Pirogov Russian National Research Medical University (RNRMU), Moscow, Russia

Day 2 – 12 of October (Thursday)

9⁰⁰ – 11⁰⁰

Section 4. New approaches in the laboratory diagnostics of autoimmune diseases

Moderators:

- *Areg A. Totolyan, Academician RAS, Head of Saint-Petersburg Research Institute of epidemiology and microbiology in honor of Pasteur, Saint-Petersburg, Russia*
- *Elena N. Alexandrova, PhD, professor, Head of laboratory of immunology and molecular biology Nasonova Research Institute of Rheumatology, Moscow, Russia*

Immunological biomarkers of autoimmune diseases (20 min)

Areg A. Totolyan, Academician RAS, Head of Saint-Petersburg Research Institute of epidemiology and microbiology in honor of Pasteur, Saint-Petersburg, Russia

Complex approach to laboratory diagnostics of autoimmune diseases (20 min)

(is not included in the CME)

Natalia S. Rytikova, PhD, Head of «ELISA», BioChimMak Company, Moscow, Russia

New laboratory biomarkers of systemic autoimmune rheumatic diseases (15 min)

Elena N. Alexandrova, PhD, professor, Head of laboratory of immunology and molecular biology Nasonova Research Institute of Rheumatology, Moscow, Russia

Systemic autoimmune rheumatic diseases new laboratory biomarkers (15 min)

Elena N. Alexandrova PhD, professor, Head of laboratory of immunology and molecular biology Nasonova Research Institute of Rheumatology, Moscow, Russia

Second generation tests for the autoantibodies detection diagnostic advantages (15 min)

Sergey V. Lapin, PhD, Head of Autoimmune Diseases Laboratory, The First St. Petersburg State Medical University named after I.P. Pavlov, St. Petersburg, Russia

Autoimmune diseases biomarkers multiparametric analysis and actual clinical practice (10 min)

Alexandr A. Novikov, PhD, leading scientific researcher of laboratory and molecular biology of rheumatic diseases Nasonova Research Institute of Rheumatology, Moscow, Russia

Autoimmune bullous dermatological diseases laboratory diagnostics (10 min)

Maria A. Nefedova, junior research fellow, Research Center for dermatovenerology and cosmetology of the Ministry of Healthcare of Russian Federation, Moscow, Russia

Autoimmunity diagnostics automation: experience of the TAFI-Diagnostics laboratory (10 min)

(is not included in the CME)

Vladimir A. Malkov, laboratory diagnostician, medical director of TAFI-Diagnostics, Khabarovsk, Russia

«Landscape of laboratory diagnostics of autoimmune diseases in Russia» survey results (10 min)

Dmitry S. Atarshchikov, PhD, Head of the Laboratory Standardization Committee FLM, Moscow, Russia

11⁰⁰ – 11¹⁵ Coffee break

11¹⁵ – 13⁰⁰

Section 5. Rational glucocorticosteroid therapy for autoimmune diseases

Moderators:

- *Ekaterina A. Troshina, Corresponding member RAS, chief scientific researcher Endocrinology Research Center, Moscow, Russia*
- *Oleg V. Knyazev, PhD, head of inflammatory intestine pathology department of Moscow Clinical Scientific Center, Moscow, Russia*

Individual glucocorticoids sensitivity: resistance development and overcome ways (20 min)

Alexander S. Dukhanin, PhD, professor, A.A. Lepekhova, N.P. Teplyuk, N.L. Shimanovsky, Department of Molecular Pharmacology and Radiobiology, Pirogov Russian National Research Medical University, Moscow, Russia

Subject on approval (20 min)

Sergey K. Zyryanov, PhD, professor, Head of the Chair of General and Clinical Pharmacology, Peoples' Friendship University of Russia, Moscow, Russia

Application of glucocorticoids in endocrinopathy (20 min)

Ekaterina A. Troshina, Corresponding member RAS, chief scientific researcher Endocrinology Research Center, Moscow, Russia

The place of program glucocorticoid therapy in the treatment of axial spondyloarthritis (20 min)

Inna Z. Gaydukova, PhD, Chair of therapy and rheumatology named after. E.E. Eyhvalda, Mechnikov North West State Medical University, Saint-Petersburg, Russia

Future of glucocorticoid therapy: panel discussion (40 min)

Bullet points:

- *Absolute and relative indications and contraindication to the long-term glucocorticoid therapy and pulse therapy appointment;*
- *Adrenal insufficiency in the background and after the treatment of glucocorticoids criteria, patient monitoring;*
- *Glucocorticoid pleiotropic effects;*
- *Pregnancy and glucocorticoid therapy;*
- *Interdisciplinary interaction algorithm in the patient's supervision during glucocorticoid therapy.*

13⁰⁰ – 14⁰⁰ Lunch

14⁰⁰ – 15⁴⁵

Section 6. Biologic therapy of autoimmune diseases

Moderators:

- *Eugene L. Nasonov, Academician RAS, scientific director Nasonova Research Institute of Rheumatology, Moscow, Russia*

Immuno-inflammatory diseases pharmacotherapy perspectives in the 21st century (20 min)

Eugene L. Nasonov, Academician RAS, scientific director Nasonova Research Institute of Rheumatology, Moscow, Russia

Anti-cytokine therapy cabinets, organizational problems of biologics provision in Russia(30 min)

Galina V. Lukina, PhD, professor, head of research department of rheumatology, Moscow municipal rheumatology center, Moscow Clinical Scientific Center, Moscow, Russia

Organizational problems of biological treatment provision in gastroenterology

Oleg V. Knyazev, PhD, head of inflammatory intestine pathology department of Moscow Clinical Scientific Center, Moscow, Russia

Tuberculosis Infection monitoring in the treatment with biologics (15 min)

Ksenia S. Frolova, phthisiatrician, Center for tuberculosis control, Moscow, Russia

The role of laboratory biomarkers in monitoring and predicting of the anti-B-cell therapy effectiveness for rheumatoid arthritis (15 min)

Anastasia S. Avdeeva, PhD, Scientific employee of the Laboratory of Immunology and Molecular Biology of Rheumatic Diseases, Nasonova Research Institute of Rheumatology, Moscow, Russia

Tofacitinib perspectives for autoimmune diseases therapy (15 min)

Eugene L. Nasonov, Academician RAS, scientific director Nasonova Research Institute of Rheumatology, Moscow, Russia

Discussion (10 min)

15⁴⁵ – 16⁰⁰ Coffee break

16⁰⁰ – 18⁰⁰

Section 7. Hemostasis pathology in autoimmune diseases

Moderators:

- *Nana K. Tetrushvili, PhD, Federal State Budget Institution «Kulakov Research Center for Obstetrics, Gynecology and Perinatology» Ministry of Healthcare of Russian Federation, Moscow, Russia*
- *Tatyana M. Reshetnyak, PhD, professor, leading scientific researcher of laboratory of systemic rheumatic diseases and group of hemorheologic impairment Nasonova Research Institute of Rheumatology, Moscow, Russia*

Antiphospholipid syndrome in the implementation of obstetric complications (20 min)

Nana K. Tetrushvili, PhD, Federal State Budget Institution «Kulakov Research Center for Obstetrics, Gynecology and Perinatology» Ministry of Healthcare of Russian Federation, Moscow, Russia

Antiphospholipid syndrome in rheumatological practice: new diagnostic and correction capabilities (20 min)

Tatyana M. Reshetnyak, PhD, professor, leading scientific researcher of laboratory of systemic rheumatic diseases and group of hemorheologic impairment Nasonova Research Institute of Rheumatology, Moscow, Russia

Thromboembolic complications of autoimmune diseases and their therapy approaches (20 min)

Oleg V. Knyazev, PhD, head of inflammatory intestine pathology department of Moscow Clinical Scientific Center, Moscow, Russia

Anticoagulant therapy during pregnancy: basic principles and approaching mistakes (20 min)

Roman G. Shmakov, PhD, Federal State Budget Institution «Kulakov Research Center for Obstetrics, Gynecology and Perinatology» Ministry of Healthcare of Russian Federation, Moscow, Russia

Hematological research center experience in the treatment of autoimmune hemolytic anemia resistant forms (20 min)

Nina V. Tsvetaeva, PhD, Leading Researcher, Scientific and Clinical Department of Chemotherapy, National Medical Research Center for Hematology, Moscow, Russia

Pharmacogenetics of antithrombotics (20 min)

Ekaterina S. Kropacheva, PhD, research fellow, Department of Atherothrombosis clinical problems, NMI of cardiology, Moscow, Russia

Day 3 – 13 of October (Friday)

9⁰⁰ – 10³⁰

Section 8. Neuromuscular pathology in autoimmune diseases

Moderators:

- *Raisa C. Bembeeva, professor, chair of neurology, neurosurgery and medical genetics pediatric faculty of Pirogov Russian National Research Medical University (RNRMU), Moscow, Russia*
- *Maria N. Zakharova, PhD, head of 6 neurology department Research Center of Neurology, Moscow, Russia*
- *Natalya A. Suponeva, PhD, head of neurorehabilitation and physiotherapy department Research Center of Neurology, Moscow, Russia*

Acute autoimmune polyneuropathies: diagnosis and treatment (15 min)

Natalia A. Suponeva, PhD, head of Neurorehabilitation and Physiotherapy Department, Research Center of Neurology, Moscow, Russia

Chronic inflammatory demyelinating polyneuropathies in children and teenagers (15 min)

Raisa C. Bembeeva, professor chair of neurology, neurosurgery and medical genetics pediatric faculty of Pirogov Russian National Research Medical University (RNRMU), Moscow, Russia
Sergey S. Nikitin, PhD, Professor, Chairman of the Society of Neuromuscular Specialists
Evgenia S. Naumova, PhD, MD, neurologist
Dmitry S. Druzhinin, PhD, neurologist, MC «Practical neurology»

Amyotrophic lateral sclerosis and ALS-like syndromes (15 min)

Maria N. Zakharova, PhD, head of 6 neurology department Research Center of Neurology, Moscow, Russia

Idiopathic inflammatory myopathies differential diagnosis (15 min)

Anna N. Helkovskaya-Sergeeva, junior researcher, Laboratory of Immunology and Molecular Biology of Rheumatic Diseases, Nasonova Research Institute of Rheumatology, Moscow, Russia

Fibromyalgia: pathogenetic relationships, treatment options (15 min)

Kirill A. Shlyapnikov, PhD, Director of the Echinacea Clinic, Moscow, Russia

Discussion (15 min)

10³⁰ – 10⁴⁵ Coffee break

10⁴⁵ – 12¹⁵

Section 9. Microbiota, food intolerance and nutraceutical for autoimmune diseases

Moderators:

- *Vera A. Revyakina, PhD, professor, chairman of the Union of Children's Allergologists in Russia, head of the Allergology Department of the Children's Nutrition Department, FSC of Nutrition and Biotechnology, Moscow, Russia*
- *Asfold I Parfenov, PhD, professor, head of the intestinal pathology department, GBUZ Moscow Clinical Research Center. A.S. Loginova Moscow health department, Moscow, Russia*

Gluten intolerance in the 21st century. Manifestations of autoimmune diseases or allergies? Differential diagnosis and therapy approaches (15 min)

Vera A. Revyakina, PhD, professor, chairman of the Union of Children's Allergologists in Russia, head of the Allergology Department of the Children's Nutrition Department, FSC of Nutrition and Biotechnology, Moscow, Russia

Gastrointestinal food allergy. Food additives and preservatives (15 min)

Inna A. Larkova, PhD, senior research fellow, FSC of Nutrition and Biotechnology, Moscow, Russia

The Concept of barrier organ disease in the pathogenesis of spondyloarthritis (15 min)

Elena A. Galushko, PhD, head of education IT and organizing department Nasonova Research Institute of Rheumatology, Moscow, Russia

OhmyGut: human microbiota research project (30 min)

Dmitry Alekseev, PhD, General Director of the company «Knomix», Moscow, Russia

Transplantation of intestinal microbiota: in clinical practice and experiment (30 min)

Darya A. Kashtanova, Researcher, Laboratory of Biology of Aging and Bioinformatics, RGNKS.

12¹⁵ – 12³⁰ Coffee break

Section 10. Patient with combined autoimmune pathology. Clinical cases

Moderators:

- *Vladimir I. Vasiliev, PhD, professor, leading scientific researcher of intensive care laboratory Nasonova Research Institute of Rheumatology, Moscow, Russia*
- *Oleg V. Knyazev, PhD, head of inflammatory intestine pathology department of Moscow Clinical Scientific Center, Moscow, Russia*

Autoimmune pancreatitis (15 min)

Karine A. Nikolskaya, Senior Research Fellow, Pathology Department, Pancreas and Biliary Tracts, GBUZ Moscow Clinical Research Center. A.S. Loginova Moscow health department, Moscow, Russia

Septic endocarditis in a patient with Crohn's disease on immunosuppressive therapy (15 min)

Nina A. Fadeeva, PhD, Senior Research Fellow of the Department of Inflammatory Bowel Diseases, Moscow Clinical Scientific Center, Moscow, Russia

14⁰⁰ – 14³⁰ Conference closing ceremony

Poster session

October 12 13⁰⁰-14⁰⁰

1. Naila R. Hasbiulina

Natural antibodies - new biomarkers detected with a microchip, for diagnosing diseases and monitoring treatment

2. Dmitry G. Deryabin

True acantholytic pemphigus: mechanisms of immunopathogenesis and prospects of immunosorption

ТАФИ-ДИАГНОСТИКА
сеть медицинских лабораторий

«ТАФИ-Диагностика» - это уникальный лабораторный комплекс мирового уровня, уже более 15 лет успешно специализирующийся в решении вопросов лабораторной диагностики.

Лаборатория обслуживает детское и взрослое население, оказывает услуги лечебно-профилактическим учреждениям Дальнего Востока, имеет прекрасно оснащённые отделения анализаторами от лидеров в области производства оборудования для лабораторной диагностики (Roche, Beckman Coulter, BIO-RAD, Thermo Scientific, Sysmex, Stago, Qiagen) во Владивостоке, а также в Хабаровске и Биробиджане.

Количество выполняемых тестов в «ТАФИ-Диагностика» составляет **более 1000**. В их число входят биохимические исследования, клинические анализы крови и мочи, аллергодиагностика признанным золотым стандартом Phadia ImmunoCAP, биочиповая технология ISAC, генетическая диагностика, автоматизированная бактериологическая, исследование иммунного статуса (методом проточной цитометрии), аутоиммунные заболевания на платформе ELIA, онкомаркеры, маркёры остеопороза, молекулярно-генетическая диагностика вирусных гепатитов и урогенитальных инфекций (методом ПЦР в режиме реального времени), определение риска врождённой патологии плода, в том числе генетическая диагностика по крови матери по технологии Harmony (Roche) и многое другое.
